Summary

Web Developer with experience building responsive web applications and user interfaces using **WordPress, Elementor, React, SvelteKit, HTML, CSS, and JavaScript**. Experienced in developing intuitive user experiences, integrating front-end applications with REST APIs and business systems, and collaborating with cross-functional teams to deliver production-ready web solutions.

Education

UNIVERSITY OF THE PHILIPPINES DILIMAN

BS Computer Science

Quezon City

2026

Experience

STREAMSOFT, INC.

Junior Analyst

Remote (Texas, USA)

December 2024 – Present

- **Created** UI/UX for self-service kiosks and developed responsive company website pages using **WordPress, Elementor, and WooCommerce**.
- **Developed 5 business applications**, including **3 production solutions** supporting healthcare and mentorship programs.
- **Integrated** applications with **SharePoint, Dataverse, and Power Automate** to deliver streamlined workflows and user experiences.
- **Implemented** UI/UX improvements and resolved production issues across web and Power Platform solutions.
- **Collaborated** with designers, stakeholders, and developers to gather requirements, test features, and deliver user-focused solutions.

UP DEPARTMENT OF FAMILY LIFE AND CHILD DEVELOPMENT

Software Engineering Intern

Quezon City

June 2024 - August 2024

- **Developed** responsive front-end interfaces for eLaan, an equipment borrowing and appointment management system, using **SvelteKit** and **Tailwind CSS**.
- **Designed** interactive UI prototypes in **Figma** and translated designs into responsive web components.
- **Integrated** Flask REST APIs with front-end components to enable reliable data exchange and application functionality.

NATIONAL SERVICE RESERVE CORPS UPD

Back-end Developer

Quezon City

September 2022 - June 2023

- **Developed** backend services and **RESTful APIs** using **Flask** to support web application functionality.
- **Designed PostgreSQL** database schemas and optimized queries to improve data retrieval performance.
- **Implemented** scalable backend architecture supporting reliable client-server communication and application stability.

Projects

AMERIYOUNG WEBSITE & SELF-SERVICE KIOSK

- **Designed and improved** the UI/UX of an e-commerce website and self-service kiosk using **WordPress, Elementor, WooCommerce, and PWA technologies**.
- **Developed** responsive layouts and user-focused interface enhancements across web and kiosk experiences.
- **Coordinated** project tasks, feature planning, testing, and quality assurance with designers, developers, and stakeholders.

ELAAN

- **Developed** responsive web interfaces using **SvelteKit** and **Tailwind CSS** for an equipment borrowing and appointment management system.
- **Designed** UI prototypes in **Figma** and integrated **Flask APIs** with front-end components.
- **Implemented** feature enhancements and bug fixes to improve usability and application reliability.

PERSONAL PORTFOLIO

- **Built** a responsive portfolio website using **React, JavaScript, HTML, and CSS**.
- **Developed** reusable UI components and responsive layouts optimized for desktop and mobile devices.
- **Deployed** the application using **Vercel**.
