Summary

Junior Software Developer with experience building Power Apps and Power Automate solutions for healthcare and business process automation. Developed **5 Power Apps applications**, including 3 production applications used by physicians and mentors, and created **50+ automated workflows**. Experienced with SharePoint and Dataverse.

Education

UNIVERSITY OF THE PHILIPPINES DILIMAN
BS Computer Science

Quezon City
2026

Experience

STREAMSOFT, INC.

Remote (Texas, USA)

Junior Analyst

December 2024 – Present

- **Developed** and maintained **5 Power Apps solutions**, including **3 production applications** that streamlined workflows for physicians, mentors, and administrative staff.
- **Designed** and maintained **50+ Power Automate workflows** that automated approvals, notifications, scheduling, and business processes, improving operational efficiency.
- **Resolved** production issues involving application functionality, user access, and permissions, ensuring system reliability and minimizing downtime.
- **Enhanced** website and kiosk user interfaces using **WordPress, Elementor, and WooCommerce**, improving usability and supporting business requirements.
- **Collaborated** with stakeholders to gather requirements, conduct testing, and implement enhancements that improved user experience and application quality.

UP DEPARTMENT OF FAMILY LIFE AND CHILD DEVELOPMENT

Quezon City

Software Engineering Intern

June 2024 - August 2024

- **Built eLaan**, a web application for equipment borrowing and appointment management, streamlining reservation and scheduling processes using **SvelteKit, Flask, and PostgreSQL**.
- **Designed** user interfaces and interactive prototypes in **Figma** and **developed** responsive front-end components with **Tailwind CSS**, delivering an intuitive user experience.
- **Integrated** front-end interfaces with back-end services and APIs, ensuring reliable data flow.

NATIONAL SERVICE RESERVE CORPS UPD

Quezon City

Back-end Developer

September 2022 - June 2023

- **Integrated** front-end interfaces with back-end services and APIs, ensuring reliable data flow.
- **Designed** and optimized **PostgreSQL** database schemas and queries, improving data organization and query performance.
- **Implemented** scalable backend architecture that supported efficient client-server communication and application reliability.

Projects

MEDICAL OBSERVERSHIP PLATFORM

- **Developed** a multi-stage observership management platform integrating **Power Apps, Power Automate, SharePoint, Microsoft Forms, Microsoft Bookings, OneNote, and Outlook** for physician onboarding, applicant management, and scheduling.
- **Built** physician and administrator dashboards to manage applicants, schedules, availability, notes, tasks, and student communications.
- **Automated** application processing, notifications, and onboarding workflows, supporting **100+ observership applicants**.

MENTORSHIP PLATFORM

- **Developed** a mentorship management platform using **Power Apps, Dataverse, Microsoft Bookings, Power Automate, OneNote, and Outlook**.
- **Built** a mentor dashboard to manage meetings, mentee information, notes, tasks, and communications.
- **Integrated** Microsoft Bookings with Dataverse and Power Automate to streamline scheduling and mentor-mentee engagement.

AMERIYOUNG WEBSITE & KIOSK PLATFORM

- **Enhanced** the user experience of an e-commerce website and self-service kiosk using **WordPress, Elementor, WooCommerce, and Progressive Web App (PWA)** technologies.
- **Implemented** responsive interface improvements and optimized customer workflows across web and kiosk platforms.
- **Collaborated** with stakeholders to gather requirements, perform testing, and deliver production-ready enhancements.
