Summary

Junior Power Platform Developer with experience building Power Apps and Power Automate solutions for healthcare and business process automation. Developed **5 Power Apps applications**, including 3 production applications used by physicians and mentors, and created **50+ automated workflows**. Experienced with SharePoint and Dataverse.

Education

UNIVERSITY OF THE PHILIPPINES DILIMAN

BS Computer Science

Quezon City

2026

Experience

STREAMSOFT, INC.

Junior Analyst

Remote (Texas, USA)

December 2024 – Present

- Developed and maintained 5 Power Apps solutions, including 3 production applications used by physicians, mentors, and administrative staff.
- Designed and maintained 50+ Power Automate workflows for approvals, notifications, scheduling, and business process automation.
- Provided production support by troubleshooting application issues, user access and permission problems, and implementing system enhancements.
- Improved website and kiosk user interfaces using WordPress, Elementor, and WooCommerce while coordinating project requirements and testing.
- Collaborated with stakeholders to gather requirements, perform testing, and improve user experience across business applications.

UP DEPARTMENT OF FAMILY LIFE AND CHILD DEVELOPMENT

Software Engineering Intern

Quezon City

June 2024 - August 2024

- Built eLaan, a web application for equipment borrowing and appointment management using SvelteKit, Flask, and PostgreSQL.
- Designed user interfaces and interactive prototypes in Figma and developed responsive front-end components using Tailwind CSS.
- Implemented API integrations and collaborated with the development team to improve application reliability and performance.

NATIONAL SERVICE RESERVE CORPS UPD

Back-end Developer

Quezon City

September 2022 - June 2023

- Developed backend services and RESTful APIs using Flask.
- Designed and optimized PostgreSQL database structures and queries.
- Supported scalable web application architecture and reliable client-server communication.

Projects

MEDICAL OBSERVERSHIP PLATFORM

- Developed a multi-stage observership management platform integrating Microsoft Forms, Power Apps, SharePoint, Power Automate, OneNote, and Outlook.

- Built physician dashboard enabling physicians and admins to view app manage applicants, track availability, create notes and tasks, and communicate directly with students.
- Automated application processing and communications workflows while supporting 100+ observership applicants.

MENTORSHIP PLATFORM

- Developed a mentorship management platform using Power Apps, Dataverse, Microsoft Bookings, Power Automate, OneNote, and Outlook.
- Built mentor dashboard for managing scheduled meetings, viewing mentee information, creating notes and tasks, and sending communications.
- Integrated Microsoft Bookings scheduling data with Dataverse to streamline mentor-mentee engagement and meeting management.

AMERIYOUNG WEBSITE & KIOSK PLATFORM

- Enhanced the user interface and user experience of an e-commerce website and self-service kiosk built with WordPress, Elementor, WooCommerce, and Progressive Web App (PWA) technologies.
- Designed responsive layouts and implemented UI improvements for both web and kiosk experiences.
- Coordinated project requirements, conducted testing, and collaborated with team members throughout the development process.

SKILLS

Power Platform: Power Apps, Power Automate, Dataverse, SharePoint, Microsoft Forms, Bookings

Development: Python, Flask, REST APIs, HTML, CSS, C

Databases: PostgreSQL, MySQL, Dataverse

Tools: Git, VS Code, Figma, Microsoft 365
